

# BSN Program (LPN/LVN)

---

## Program Description:

The Bachelors of Science in Nursing (BSN) program builds on the basic education, skills, and experience of the practical nurse transitioning to the professional nursing role. LLU's School of Nursing is committed to the advancement of nurses through the development of nurse leaders. Our curriculum builds upon a foundation of biological, physical, and social sciences, which contribute to the science of nursing. Program objectives focus on leadership, advocacy, professionalism, collaboration, incorporation of caring, and reflective clinical/teaching practice. The acquisition of these objectives is essential to the practice of nursing.

Below are LLU's Bachelor of Science in Nursing (BSN) program completion requirements:
